Thank you Rick.

Per Nancy's email from earlier in the week about coordinating the OCSPP Equity Review if there are no further comments I will prepare to have this sent through the Awareness Notification process.

All the best,

Thanks Nick. I don't have any comments/questions. From what I can recall, many of these documents have likely been released in response to other FOIA requests.

Subject: OCSPP - Equity Notification - Wiley Rein - Chlorpyrifos ESA - EPA-HQ-2018-003940 - ED_001776

Good Afternoon Charlotte, Nancy, and Erik,

Before we send out the Awareness Notification Email under the new guidelines as detailed in the FOIA Efficiency Memo we are sending this OCSPP Equity Notification Email.

We are in the process of producing documents for the Wiley Rein - Chlorpyrifos ESA - EPA-HQ-2018-003940 - ED_001776 FOIA request.

Please note, in the production link, some of the redactions have been made by OPP and others have been made by FWS.

I. Scope of the Request:

The original collection of documents in the Relativity database had **107,322** documents. After excellent conversations with the associate at Wiley we were able to have him agree for us to review for more reasonable amount of documents in which he confirmed that we would “proceed with a review of the **1,693** documents associated with Ms. Echeverria”. A great example showcasing our Offices accuracy in efficiency in meeting requestors needs.

Therefore, this review was limited to one Custodian, **Marietta Echeverria**, based upon the following search string:

(“fws” or “wildlife” or “fish”)

II. Description of the Production:

This proposed production includes **6 documents**, with a total of **64 pages**.

Please find the link below for the production:

III. Deadline for Review:

This matter is scheduled for production on **03/22/2019**. Thus, we will need to send the Awareness Notification Email out on **03/19/2019**.

Please let me know if there are any questions.

All the best,
Nick
